

Evy Bosman  
Artist

Evy Bosman Art  
Based in Belgium

## PROFILE

---

Evy Bosman allows interaction between abstraction and photorealism, between drawing and the photographic act, between historical genres and contemporary forms of processing, between digitally high scans and the analogous methods, between the observable and the fiction (Latin: fictio, "formation"). The motive behind her Artproduction is walking the shaky, sharp borderline between these opposites. From that she creates a new effectiveness, at the same time poststructuralist and refined image grammar.

## EDUCATION

---

- Bachelor of Arts (BA) in Drawing and Printmaking LUCA School of Arts
- Master of Arts (MA) in 3D Design and Glass Art LUCA School of Arts
